Hacker-Pschorr Weisse is a centuries-old German wheat beer from Bavaria that offers a very refreshing taste. The beer's cloudy appearance is due to yeast that is retained in the beer. A centrifuge process is used with traditional wheat beers to retain the yeast instead of the typical filtering process used with beers that are clear in appearance. The result is a taste that is authentic and perfect all year-round after a game of hoops, a day on the mountain or just hanging out after work with
